## Mathematical Methods in Physics

### Small Group Tutoring

Pablo Sevilla

April 5, 2018

## 1 What is Small Group Tutoring?

LSS provides **FREE** one hour sessions where I facilitate **interactive learning activities** to engage you in critical thinking, increase **problem solving skills** and advise on multiple **study strategies**. I will track progress through individual multiple choice questions on the material and **provide challenging problems to explore in groups**. I will also recommend external resources that have helped me in succeeding in the course, such as extra reading and educational YouTube videos. **Snacks will be provided!**

## 2 How to sign up

- Visit the **Learning Support Services website** (Google: UCSC LSS).
- Click on **Small Group Tutoring** and login using your CruzID and Gold password.
- **Select session times.** Contact me if you cannot make any sessions.
- Tutoring sessions begin on **Week 2**, and you can sign up starting this **Friday, April 6 at 12PM**.

### Session Times

- **Monday:** 4:00-5:00pm.
- **Wednesday:** 10:45-11:45am.
- **Wednesday:** 2:45-3:45pm.

**Location: Science and Engineering Interactive Class**
